- the dimensions of the teeth have a tolerance of 5% less than from the values shown in the mould chart;
- Colour and blending of shades: designed as per the natural tooth structure to make the tooth show the translucent opalescence effect in shade and it's transition for enamel and dentine;
- No porosity and other defects: no porosity or defects, such as rough trimming, rough finish or visible impurities on the coronal surfaces;
- Newly designed two-layer color teeth, it will come soon, hope to provide you with more help.
